

CHILDREN ONLINE PROTECTION LABORATORY

Request for Expressions of Interest

FORM

You may **preview** this Expression of Interest (EOI) Application form for your convenience, as you develop your proposal. Online forms are able to be saved and edited until final submission.

All applications must be submitted through the online forms:

→ Call for Ideas: <https://form.jotform.com/Laboratoireprotectionenfance/copl-eoi-ideas>

→ Call for Resources: <https://form.jotform.com/Laboratoireprotectionenfance/copl-eoi-resources>

Before submitting an EOI, please read the complete guidelines, which may be found [here](#).

These application guidelines are for the Children Online Protection Laboratory (COPL)'s Request for EOI – 2024 Experimentations. The purpose of this Request for Expression of Interest (EOI) is to identify potential ideas and resources from the COPL community, and to develop a better understanding of its priorities. The EOI submitted will help to collectively shape the design of a subsequent Call for Proposal (CfP), through which the next cohort of experimentations will be selected. The forms are short to fill: this is a chance for your organization to contribute to the Laboratory's cycle of experimentations, and a timely moment to suggest work that aligns with your priorities!

Interested and eligible entities are invited to complete and submit the [Expression of Interest Application Forms](#) online and provide the information indicated in the form. All submissions must be made in English. Expressions of Interest will be reviewed after the close of the request. The last day for submissions of EOIs is **3 MARCH 3 2024 11:59 PM EST**.

Submissions to this Request for EOI will be reviewed by the COPL Secretariat, Safe Online, and selected experts. Potential, specificity and clarity of the submissions will be assessed; however, they will not be scored. It is not expected that EOIs will cover in depth or provide full details of the project - this form should be relatively quick to fill, however **please provide as much information as you can to facilitate synergies among the COPL community**.

Feedback on the community's priorities and potential synergies between organizations will be provided collectively during a meeting of the COPL, and ahead of the launch of the CfP. Responses to the EOI submissions cannot be provided to all applicants, but feedback may be provided upon request.

This Request for Expressions of Interest does not constitute a call for proposals and/or solicitation. The COPL does not require proposals or bids at this stage; this EOI request is seeking ideas and resources to support the design of the 2024 Call for Proposals. A response to this request for EOI does not bind the submitting entities to the concepts or ideas proposed for the subsequent CfP. A response to the request for EOI is not required, but encouraged prior to submitting a proposal to the CfP.

If you have any questions about this request for EOI, please reach out to Laboratoire.protection-enfance@diplomatie.gouv.fr.
